vS ARCEUS !

POCKET MONSTERS SPECIAL
The Nineth Chapter
HEART GOLD&SOUL SILVER
9

Mr. Morty
Looks like the top half of my gym was blown off in one blast
What was that blast...?
Was I knocked out...?
Ugh...
but it seems that they both left
I think I saw him facing some kind of huge figure...
Where's Gold?
...
...
If he's the Gold I know, then he probably went off to fight that enemy...!
Where are you going?
?

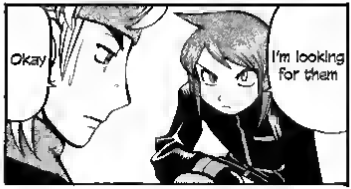
But before that...
I see... Looks like I can't stop you

I'm... going after them!!

why don't you accomplish what you came here for first?

scattered all over the place
There are 16 of these
These are "plates"

.....



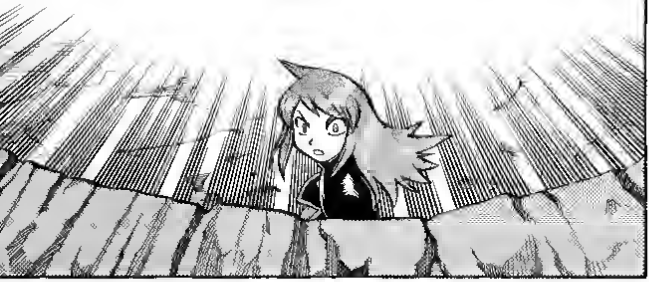
Okay
I'm looking for them

I-... I'm okay...
H-Hey!!
Instead of the locations of the 13 plates... I saw another image
It's...
the giant figure that attacked the gym...

An image of the 16 plates
on top of the silhouette of the figure came to me...

What !?

The 16 plates...
and the giant figure...
Plates



They're trying to bring them together..!

The mysterious plates that can bring out unbelievable strength

A Pokemon with this much destructive power.

It's just as you said...
There are 13 more of those energy vessels... located all over Johto..

Those who were persistently trying to get me to accept their job in the last few days may have been after the same thing
Silver Here

I've marked them on your map...
..Projecting my consciousness to 13 different places...

Wea-

It lives in snowy regions. It carves patterns in trees with its claws as a signal to others.
It's carving a sign on the tree with its claws
What is it doing?

We've left signs asking for help looking for rectangular "plates"
In all of the cities, towns and routes that we've been through,
and even in the Safari Zone
All of the Sneasels and Weaviles that have seen the sign
copy it all over their territories and wherever they go
That's how our message
gets broadcast all over the land
Look, even now...
That's how we've
Oh my...!
lived all this time

I took these from you, the Gym Leader of Olivine City
